SUMMARY

Enthusiastic computer science student with solid skills in software development, web technologies and algorithms. Experienced in collaborative projects, seeking an SDE role to apply problem-solving abilities in a dynamic environment.

EDUCATION

Bachelor of Technology in Computer Science

Indore Institute of Science and Technology • Indore • 2025 • 7.95

EXPERIENCE

MERN Stack Developer Intern

NABH TECH

September 2024 - December 2024, Indore

- Developed a full-stack web applications using the MERN stack, ensuring seamless integration between frontend and backend services.
- Developed responsive and rich user interfaces using React.js, enhancing user experience and engagement.
- Assisted in database management and deployment, leveraging MongoDB, Express.js, React.js, and Node.js to build scalable applications.

Ninja Entrepreneur

Coding Ninjas

October 2022 - December 2022, WFH

- Collaborated with the marketing team to develop strategies for reaching target student demographics.
- Provided valuable feedback to Company on student preferences and trends, contributing to product/service improvements.
- Connected and Collaborated with individual minds working on this fields.

PROJECTS

V Notes

Personal Project • www.vnotes.me

• March 2024 - Present

- Designed and developed a user-friendly handwritten notes website for technical subjects, benefiting over 650+ visitors and 1,000+ page views to date.
- Implemented with Next.js, TypeScript, and Sanity, utilizing modern web development practices to ensure a scalable and efficient application.
- Optimized performance and page load speed, improving site speed by 40% compared to initial deployment.

FundRaiser: A CrowdFunding Platform Using Blockchain

Minor Project • github.com/vishalparmarr/FundRaiser.git

• October 2023 - March 2024

- Designed and developed a secure crowdfunding platform leveraging blockchain technology, enabling transparent transactions and eliminating third-party involvement, increasing trust and efficiency for users.
- Achieved 5+ active campaigns within the development process to check integrity of a software.
- Implemented blockchain-based smart contracts to ensure 100% transparent and immutable transaction records.
